# Impfung des Pflegepersonals

---

- **Pflegeheime in UK, gut 2600 Bewohner**
- **70-78% der Bewohner gg Grippe geimpft**
- **Matched randomisation: je 24 Heime**
  - Intervention: Aktives Impfprogramm für Personal
  - Kontrolle: Kein spezielles Programm
- **Grippeimpfung beim Personal rel. selten**
  - Interventionsprogramm: **ca. 30%**
  - Kontrollgruppe: **ca. 3 %**

# Influenzaaktivität in 2. Periode gering

# Impfung Personals schützt Bewohner
